INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Lower Brushy Creek Water Control and Improvement District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the General Fund of Lower Brushy Creek Water Control and Improvement District (the "District"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the District as of September 30, 2018, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental information required by the TCEQ listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

LOWER BRUSHY CREEK WATER CONTROL AND IMPROVEMENT DISTRICT

MANAGEMENT'S DISCUSSION & ANALYSIS SEPTEMBER 30, 2018

In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 34, the management of Lower Brushy Creek Water Control and Improvement District (the "District") offers the following narrative on the financial performance of the District for the year ended September 30, 2018. Please read it in connection with the District's financial statements that follow.

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "General Fund" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

Financial Highlights

- The assets of the District at September 30, 2018 were \$5,131,739, and exceeded liabilities by \$5,104,376 (*net position*).
- Total net position increased \$965,774 for the year ended September 30, 2018.
- The General Fund had a deficit fund balance of \$2,739 at September 30, 2018, an increase of \$20,325 from the prior year.

Overview of the Basic Financial Statements

The District's reporting is comprised of two parts:

- *Management's Discussion and Analysis* (this section)
- *Basic Financial Statements*
 - *Statement of Net Position and Governmental Fund Balance Sheet*
 - *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance*
 - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
 - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Basic Financial Statements* are designed to provide readers with an overview of the District's finances, in a manner similar to the private sector business.

The *Statement of Net Position and Governmental Fund Balance Sheet* presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. The statement of net position can be found on page 9 of the report which includes a column (titled "General Fund") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance* represents information showing how the District's net position changed during the most recent fiscal year which includes a column (titled "General Fund") that derives the change in fund balance resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the District's adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Fund Balance Sheet* and the *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance*. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods and some expenses are resulting from cash flows from prior periods. The increase or decrease in net position may serve as an indicator of the effect of the District's current year operations on its financial position. The *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance* can be found on page 10 of this report.

Other supplementary information schedules required by the Texas Commission on Environmental Quality are presented immediately following the *Notes to Basic Financial Statements*.

Statement of Net Position

	Governmental Activities		
	2018	2017	% Change
Current assets	\$ 24,624	\$ 138,148	(82%)
Capital assets	5,107,115	4,161,666	23%
Total assets	5,131,739	4,299,814	19%
Current liabilities	27,363	161,212	(83%)
Total liabilities	27,363	161,212	(83%)
Net investment in capital assets	5,107,115	4,161,666	23%
Unrestricted	(2,739)	(23,064)	88%
Total net position	\$ 5,104,376	\$ 4,138,602	23%

The District's total assets were \$5,131,739 as of September 30, 2018. Of this amount, \$5,107,115 was accounted for by capital assets, leaving unrestricted net assets as a deficit of \$2,739. The District had outstanding liabilities of \$27,363 as of September 30, 2018, which represent current liabilities.

The District's primary source of revenue is federal and state grant revenues. The Statement of Activities for the year ended September 30, 2018 is summarized as follows:

	Governmental Activities		
	2018	2017	% Change
Revenues:			
Federal grant revenue	\$ 669,521	\$ 1,196,544	(44%)
State grant revenue	574,425	520,351	10%
Other	50,000	11,000	355%
Total revenues	1,293,946	1,727,895	(25%)
Expenses:			
Operating expenses	243,589	38,709	529%
Depreciation	84,583	65,727	29%
Total expenses	328,172	104,436	214%
Change in net position	965,774	1,623,459	(41%)
Beginning net position	4,138,602	2,515,143	65%
Total net position	\$ 5,104,376	\$ 4,138,602	23%

Operating revenues were \$1,293,946 for the fiscal year ended September 30, 2018, of which state and federal grants provided \$1,243,946. Total expenses were \$328,172 for the fiscal year ended September 30, 2018. Net position increased \$965,774 primarily due to additions to capital assets during the fiscal year.

Financial Analysis of Governmental Fund

	2018	2017
Cash	\$ 22,624	\$ 10,832
Due from other governments	2,000	127,316
Total assets	\$ 24,624	\$ 138,148
Total liabilities	\$ 27,363	\$ 161,212
Unassigned fund balance	(2,739)	(23,064)
Total fund balance	(2,739)	(23,064)
Total liabilities and fund balance	\$ 24,624	\$ 138,148

The *General Fund* pays for daily operating expenditures. At September 30, 2018, the District's governmental fund reported a deficit fund balance of \$2,739, which is an increase of \$20,325 from the prior year. When comparing actual to budget, actual revenues were less than budgeted by \$392,554 due to federal and state grant revenue being less than expected. Actual expenditures were lower than budgeted by \$412,879 primarily due to capital outlay costs associated with federal and state grants being less than expected. More detailed information about the District's budgetary comparison is presented in the *Basic Financial Statements*.

Capital Assets Activity

At September 30, 2018 and 2017, the District had the following capital assets in operation:

	2018	2017
Earthen dams	\$ 7,366,397	\$ 5,596,806
Construction in progress	-	739,559
Subtotal	7,366,397	6,336,365
Accumulated depreciation	(2,259,282)	(2,174,699)
Total	\$ 5,107,115	\$ 4,161,666

The District is in process of rehabilitating additional dams. More detailed information about the District's capital assets is presented in the *Notes to Basic Financial Statements*.

Currently Known Facts, Decisions, or Conditions

The adopted budget for 2019 projects a decrease in the fund balance of the General Fund of \$29,500. When compared to the 2018 budget, revenues are expected to decrease by approximately 29% in 2019. Expenditures are expected to decrease by approximately 27% in 2019 when compared to the 2018 budget.

Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District at c/o USDA - NRCS, 505 West University Avenue, Suite C, Georgetown, Texas 78626.

LOWER BRUSHY CREEK WATER CONTROL AND IMPROVEMENT DISTRICT

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED SEPTEMBER 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Brushy Creek Water Control and Improvement District No. 1 of Williamson and Milam Counties was created November 1, 1956 by the State Board of Engineers (predecessor to the Texas Water Rights Commission) and operated pursuant to Chapters 49 and 51 of the Texas Water Code. In a November 2001 election, the voters of the district approved a proposal to split the district into two entities: Brushy Creek Water Control and Improvement District No. 1A of Williamson and Milam Counties and Brushy Creek Water Control and Improvement District No. 1B of Williamson and Milam Counties. The assets of the former district were allocated among the new entities. The Board of Directors of Brushy Creek Water Control and Improvement District No. 1B of Williamson and Milam Counties held its first meeting on February 4, 2002. On September 7, 2010, the Texas Commission on Environmental Quality approved a request by Brushy Creek Water Control and Improvement District No. 1B of Williamson and Milam Counties to change its name to Lower Brushy Creek Water Control and Improvement District (the “District”).

The reporting entity of the District encompasses those activities and functions over which the District’s elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors (the “Board”) which has been elected by District residents or appointed by the Board. The District is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”), since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters. In addition, there are no component units which are included in the District’s reporting entity.

Government-Wide and Fund Financial Statements

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “General Fund” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the District. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, if any, are recognized as revenues in the year for which they are levied. Grants are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes, if any.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Major revenue sources considered susceptible to accrual includes interest income.

The District reports the following major governmental fund-

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

Budgets and Budgetary Accounting

Formal budgetary integration is employed as a management control device for the General Fund. The budget is proposed by the District's General Manager for the fiscal year commencing the following October 1, and is adopted on a basis consistent with generally accepted accounting principles.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Investments - The District is entitled to invest any and all of its funds in obligations of, or guaranteed by, the United States of America or its agencies, certificates of deposit, and certain public fund investment pools. The District's investment policies and types of investments are governed by Section 2256 of the Government Code ("Public Funds Investment Act"). The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy. The District has not formally adopted an investment policy that limits the District's allowable investments, addresses the specific types of risk to which the District is exposed, and addresses the District's investment strategy.

Capital Assets - Capital assets, which include earthen dams and construction in progress, are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of at least \$5,000. Such assets are recorded at historical cost if purchased or estimated acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Capital assets (other than land and construction in progress) are depreciated using the straight line method over the following estimated useful lives: earthen dams - fifty years.

Fund Balance - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental fund. See Note 8 for additional information on those fund balance classifications. The District's General Fund had a deficit fund balance at September 30, 2018 of \$2,739. This deficit will be eliminated through the collection of grant revenues and property tax revenue, which are expected in fiscal year 2019.

Deferred Outflows and Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncement

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after December 15, 2019. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2021.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Amounts reported for governmental activities in the statement of net position are different because:

Governmental fund total fund balance	\$ (2,739)
Capital assets used in governmental activities are not current financial resources and are therefore not reported in the governmental fund balance sheet	<u>5,107,115</u>
Total net position	<u>\$ 5,104,376</u>

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance	\$ 20,325
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense	
Capital outlay	1,030,032
Depreciation expense	<u>(84,583)</u>
Change in net position	<u>\$ 965,774</u>

3. CASH

The District's deposits are required to be secured in the manner provided by law for the security of the funds. At September 30, 2018, such deposits were entirely covered by Federal Deposit Insurance Corporation insurance or secured by collateral pledged by the depository.

4. DUE FROM OTHER GOVERNMENTS

The District participates in federal and state programs from which it receives grants to partially or fully fund rehabilitation, maintenance and repair of earthen dams. These amounts are reported in the basic financial statements as Due from Other Governments and are summarized below at September 30, 2018.

Federal grants	\$ 1,300
State grants	<u>700</u>
Total	<u>\$ 2,000</u>

5. CAPITAL ASSETS

Capital assets activity for the year ended September 30, 2018 was as follows:

	Balance September 30, 2017	Additions	Deletions/ Transfers	Balance September 30, 2018
Capital assets, not being depreciated-				
Construction in progress	\$ 739,559	1,030,032	(1,769,591)	-
Total capital assets, not being depreciated	<u>739,559</u>	<u>1,030,032</u>	<u>(1,769,591)</u>	<u>-</u>
Capital assets, being depreciated-				
Earthen dams	5,596,806	-	1,769,591	7,366,397
Total capital assets, being depreciated	<u>5,596,806</u>	<u>-</u>	<u>1,769,591</u>	<u>7,366,397</u>
Less accumulated depreciation for-				
Earthen dams	(2,174,699)	(84,583)	-	(2,259,282)
Total accumulated depreciation	<u>(2,174,699)</u>	<u>(84,583)</u>	<u>-</u>	<u>(2,259,282)</u>
Total capital assets, being depreciated, net	<u>3,422,107</u>	<u>(84,583)</u>	<u>1,769,591</u>	<u>5,107,115</u>
Capital assets, net	<u>\$ 4,161,666</u>	<u>945,449</u>	<u>-</u>	<u>5,107,115</u>

6. RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained coverage from commercial insurance companies and the Texas Municipal League Intergovernmental Risk Pool (“TML Pool”) to effectively manage its risk. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered.

The TML Pool was established by various political subdivisions in Texas to provide self-insurance for its members and to obtain lower costs for insurance. TML Pool members pay annual contributions to obtain the insurance. Annual contribution rates are determined by the TML Pool board. Rates are estimated to include all claims expected to occur during the policy including claims incurred but not reported. The TML Pool has established claims reserves for each of the types of insurance offered. Although the TML Pool is a self-insured risk pool, members are not contingently liable for claims filed above the amount of the fixed annual contributions. If losses incurred are significantly higher than actuarially estimated, the TML Pool adjusts the contribution rate for subsequent years. Members may receive returns of contributions if actual results are more favorable than estimated.

7. COMMITMENTS AND CONTINGENCIES

The District participates in federal and state financial assistance programs and these programs are subject to financial and compliance audits. The amounts, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

8. FUND BALANCES

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, amounts that are appropriated by the Board that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balance is included in the Governmental Fund Balance Sheet on page 9.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board may also assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

9. SUBSEQUENT EVENT

In November 2018, voters within the District approved an operations and maintenance tax at a maximum rate of \$0.02 per \$100 valuation of taxable property.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Board of Directors of
Lower Brushy Creek Water Control and Improvement District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Lower Brushy Creek Water Control and Improvement District (the "District"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 21, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be a material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
